**Declaration about REACH-directive**

*Applicability* : Speciality Films Produced By Saint-Gobain Performance Plastics

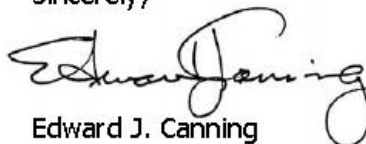

To whom it may concern:

Products manufactured by Saint-Gobain Performance Plastics qualify as articles as defined by REACH legislation. Furthermore, no substances are intentionally released as a result of using our products in the intended manner.

Saint-Gobain fully intends to satisfy all requirements set forth by REACH legislation. A task force has been established to ensure that inventories of product components are carefully scrutinized and resulting documentation will be submitted in accordance with established timetables.

As a downstream user of substances, we are in the process of verifying that all substances we use will be registered by our suppliers and that our use will be identified in our supplier's safety data sheet when required. In addition, communications with suppliers is conducted to ensure that they will continue the uninterrupted supply of their products to Saint-Gobain Performance Plastics. This process is just starting and is forecasted to be finished by the end of the year.

Sincerely,

Edward J. Canning  
Corporate Manager, Health, Safety & Environment  
Saint-Gobain Performance Plastics
