**RE: ROHS – NORTON® TH Series Polyimide Film**

Dear Customer:

I am writing at your request to provide information about the presence of regulated substances in the above Saint-Gobain product(s) you purchase. As I understand your request, the concern is about substances listed in 2002/95/EC, RoHS in electronic and electrical equipment. The list of regulated substances includes lead, mercury, cadmium and their compounds as well as hexavalent chromium and brominated flame retardants.

Based on a review of our manufacturing records and technical information for this product, to the best of our knowledge, no regulated substances, as specified above, are contained in this product. The liner that may be supplied with this product is considered an article which will be discarded before use of the product, creating an exception to compliance.

Sincerely,

**SAINT-GOBAIN PERFORMANCE PLASTICS**
